MTSU Changing Permissions Online on a Panopto Video

Videos stored in Panopto may need to have permissions set so that the video can be viewed by students across D2L course shells.

Once you have logged into Panopto and navigated to the desired folder and video, click the **Share** button associated with the specific video.

In the pop-up window that appears, locate the **Who Can Access This Video** section. Click the **Change** link to change the permissions.
