If you have questions about the Major Field Test contact Human Sciences at 898-5741

REQUIRED GENERAL EDUCATION EXAM

All undergraduate students who will earn a bachelor’s degree from MTSU are required to take the general education exam (known as exit exam) unless you meet one of the criteria below. As a prospective Spring 2016 graduate you are required by MTSU and the Tennessee Higher Education Commission to complete a General Education exam. If you meet one of the criteria below, please send e-mail to iepr@mtsu.edu, reply to this email, or contact the Office of Institutional Effectiveness, Planning and Research at (615) 494-8803 to discuss a possible exemption from this exam.

- Student tested in a previous year;
- Student is a second degree candidate (e.g., earned a first bachelor’s degree from a regionally accredited institution and is seeking second bachelor’s degree from MTSU);
- Student earned an Associate of Arts (AA) degree or an Associate of Sciences (AS) degree from another institution;
- Student is registered with Disability Services as having a documented disability that the test and/or testing center is not designed to accommodate;
- English is not student’s primary language;
- Student took the general education courses at other institutions;
- Student lives 50 miles or more from MTSU and does not come to the main campus to attend classes.
- The exam will be administered on the computers in KUC 107 between January 25 and February, 2016. Please take it as soon as possible. Don’t delay. If for some reasons you don’t graduate this semester after you have taken the test, you don’t need to take it again in the semester you graduate. You just need to take this exam once before you graduate from MTSU. Please click on the link to schedule the time, http://www.flashappointments.com/client/launch.cfm?busld=10220.

You must have your MTSU ID or your “M” number and Driver’s License with you. Please arrive a few minutes early. The exam takes about one hour.

MTSU uses the California Critical Thinking Skills Test (CCTST) as its General Education exam. The CCTST uses critical thinking questions requiring the application of one’s reasoning skills to contexts appropriate to the analysis, inference, and evaluation expectations for college students.

We encourage you to do your best on the exam. Although it will not be placed on your official transcript, the score you earn is important to you and MTSU. Students’ scores can influence public perception of the value of your MTSU diploma.

Best wishes as you complete your graduation requirements. If you have any questions about this exam, you may e-mail iepr@mtsu.edu or contact our office at (615) 494-8803.
