New Summer Advanced Composite Manufacturing Innovation (IACMI) Internships Available at Multiple Locations

The Institute for Advanced Composite Manufacturing Innovation (IACMI) has launched a new summer internship program for undergraduate and graduate students interested in learning more about advanced composites technologies to aid in the creation of low-cost and energy-efficient manufacturing. Summer 2016 IACMI internship participants will have the opportunity to use state-of-the-art manufacturing equipment and interact with scientists and engineers who are at the top of the advanced composites and manufacturing fields. Program participants will receive a weekly stipend ($600 for undergraduates, and $750 for graduate students) for the duration of the program, a housing allowance up to $175 weekly, and travel limited expenses to-and-from the internship site.

Interested applicants will have the opportunity to apply for internships at one of five IACMI partner locations:

- Composite Materials for Compressed Gas Storage – Dayton, Ohio
- Design, Modeling and Simulation – West Lafayette, Indiana
- Composite Materials and Process – Knoxville, Tennessee, Nashville, Tennessee, and Lexington, Kentucky
- Composite Materials for Wind Turbines – Golden, Colorado
- Composite Materials for Vehicles – Detroit, Michigan

Program requires that applicants must:
- Be U.S. citizens
- Be current undergraduate or graduate students in good standing at a regionally accredited U.S. college or university
- Have a minimum cumulative GPA of 3.2 or the equivalent as verified by transcripts
- Be at least 18 years old at the time of the appointment
- Provide proof of health insurance coverage (the opportunity to purchase health insurance through ORAU will be offered)

Application deadline: March 15th, 2016.  
Program dates: June 6th – August 12th, 2016 (10 weeks)
