Using State Farm Lecture Hall

Business Aerospace Building Room S102
Equipment Rack

- DVD Player
- VCR
Touch the screen to begin session. It will usually be black before you touch it.

These are your first two options.

Select “Power Up” to turn on the overhead projector. You will select what to display on the next screen.
Touch here to display the computer on the OHP.

**Note**: We recommend to start by displaying the computer on the projector.

An option to display your choice to the class will appear here when you select the source.
Using Remote Mouse

Press and hold button beneath the mouse for pointer mode operation.

Wireless mouse works like a regular mouse.

Please put mouse back on the charger when finished.
Select DOC CAM to display the ELMO image

After the Source option is selected, the projector will automatically display the document on Document Camera.
Document Camera (ELMO)

Place document here.
ELMO Controls

- Hit once to freeze frame.
- Hit twice to unfreeze frame.

Zoom in and out

Make display sharper or softer.
Press here to turn on if ELMO does not do so automatically.
ELMO Controls (Cont.)

More controls
Displaying a DVD Movie

Select DVD/VCR.

Show the DVD/VCR movie as shown on the AMX.
VCR Controls

Allows you to select options on DVD.

Press here to show movie on the projector.

Press Play to play the movie.

Make sure you have your DVD or tape ready in the player first.
First, select the volume option.

Then use these controls to adjust the volume.
Microphones

- Hand-held Microphone
- Lapel Microphone
On/Off switch for hand-held microphone
Select volume.

Adjust microphone volume here.
Then choose an option.

The projector will turn off automatically. Wait 4 minutes to turn it on again (OHP must cool off first!)
Congratulations!

- You Are Now Ready to Use Multimedia Presentations
- Please Turn Off All Equipment When Finished
