MTSU Facilities Services is a department reporting to Senior Vice President Alan Thomas of the Division of Business and Finance.

FSD website

A Tennessee Board of Regents University, Middle Tennessee State University is an equal opportunity, non-racially identifiable, educational institution that does not discriminate against individuals with disabilities.

Assistant Vice President's Summary

Joe Whitefield

The mission of Facilities Services is to maintain facilities and grounds and present them to the university tenants and the public in a safe, clean, and functional condition while managing the resources and assets in accordance with applicable requirements, procedures, and constraints.

FY 21/22 has concluded and FY 22/23 is well

underway. The fiscal year will be most noted for the return to normal operations following the easing of the COVID-19 pandemic. Plans and protocols were revised and implemented throughout the year. As always, Facilities Services maintains a constant focus on productivity management, innovation, informed decision making, and effective communication in serving the campus community.

This report highlights many accomplishments in FY21/22 for the department and updates the O&M and capital budgets. The following are samples of the Accomplishments and Challenges/Opportunities.

Accomplishments

Performance Metrics

The Summary of Services report from the previous FY identified a combined total of 106 individual goals across the departmental work units for the FY21/22. Overall, 82 of the goals were completely met or had substantial progress toward their completion (77%), 19 of the goals had progress toward completion but remain on-going (18%) and 5 of the goals had showed little to no progress (5%).

Capital Projects, Construction Renovation Projects, and Maintenance Projects

- 3 capital construction projects were completed totaling \$2.80 million
- 13 new capital construction projects in design totaling \$124.11 million
- 131 renovation projects were completed totaling \$2.20 million
- 121 major maintenance projects were completed totaling \$1.96 million

Customer Service and Communication

- All work units combined to complete 19,213 work orders for the year
- Administered the customer survey process that produced useful feedback and consistently high ratings for services
- Continued weekly meetings with Residential Life maintenance staff to review work progress for Housing

Management and Productivity

- Participated on the University SACSCOC Committee for the 5th year accreditation review
- The business intelligence software program was expanded within the department providing for significantly enhanced work analytics and improved project planning.
- Staff, informational and safety meetings were conducted throughout the department
- EH&S training software (Safe Colleges) was used to enhance all forms of required training for the department and campus community

Energy Management

- The TN High Performance Building Guidelines are used to design energy efficiency and sustainability features into capital projects
- Facilities Services applies for and has been awarded numerous Sustainable Campus Fee projects to improve energy efficiency and sustainability of several existing facilities across campus
- The MTSU Energy Guidelines are in effect for the campus

Challenges and Opportunities

Pandemic

The impacts of the COVID-19 pandemic are diminishing with regard to facilities operation. Health and safety of Facilities Services employees and all members of the campus community remains the primary priority. Direct and indirect budget impacts and fiscal responsibilities are also concerns as resources are being directed away from COVID specific activities, but supply-chain issues and inflation remain. As FY22/23 begins, these effects and their ramifications are still unfolding in many aspects of university operations.

Budgets

Maintenance and Operations (O&M) budgets are for basic operational needs such as custodial services, grounds services, central utilities services, light bulb changing, etc., and routine maintenance and repair of facility systems such as HVAC, electrical, etc. The O&M budgets for Facilities Services have remained level over the years.

(Continued on page 4)

(Continued from page 3)

FY21/22 concluded with significant signs of significant inflation on both an annual basis and month-to-month basis. Inflation factors will impact all aspects of operations including in-house labor costs (and staffing), material costs, contractor support costs, and utilities. This will be a major area of focus for FY22/23 and beyond.

Capital maintenance projects are submitted each year, typically totaling \$10 million - \$13 million, to provide for the major repair

and replacement needs of the campus. Funding formulas indicate an annual need of approximately \$15 million just to remain level. FY22/23 submissions of \$11,798,000 resulted in approved funding for 5 projects totaling \$7,160,000. Funding levels below the annual require-

ment are expected to continue. These deficits accumulate over time to a condition referred to as "deferred capital renewal." This condition is reported on in the Campus Master Plan.

Utilities/Energy Costs

On the whole, energy and utility costs in FY21/22 increased 4.1% from the previous FY. This increase is associated with increased energy demand from the full-scale return to normal campus operations following the COVID-related reduction in the use of facilities in the previous year(s). Even with the increased energy use/costs, there is an aggregate cost reduction of 11.4% compared with FY 16/17. Beyond the consistent use and efficient operations of the facilities and utility plants over the years, natural gas rates had been consistently low.

However, inflation and market volatility has driven the commodity price up considerably. MTSU was able to lock in two years of lower natural gas rates prior to the market effects blunting the price increase in the short run. This is positive considering the reliance on natural gas to fuel the 5-mw turbine/cogeneration system. The Tennessee Valley Authority continues to adjust (net increases)

electrical rates. MTSU maintained our time-of-use rate. As such, we remain judicious in our utilities operations and more efficient in every aspect of energy management.

New Buildings and Infrastructure

New buildings add to the O&M and utility needs of the campus. The recent growth increases the demand for O&M services as well as the infrastructure capacity. Most notably, construction on the School of Concrete and Construction Management building is scheduled for completion in Fall of 2022.

Energy and Sustainability

There are many initiatives designed to increase the greening of the campus such as the Sustainable Campus Fee program, the Tennessee High Performance Building Guidelines for capital projects, the recycling program, etc. These programs and initiatives are effective but are also limited by economic factors such as first costs and paybacks. Energy and environmental regulations are increasing as well. Overall, Facilities Services and the Center for Energy Efficiency do an excellent job of integrating the economic and program elements to maximize the energy and sustainability benefits across the campus.

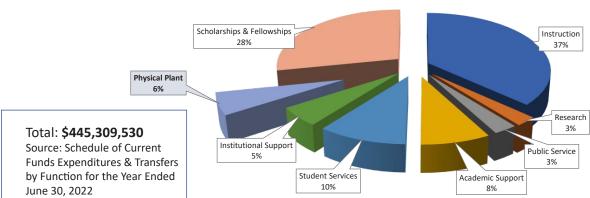

Conclusion

Although constrained by resources and inflationary pressures, we continue striving to maintain the campus in a safe, clean, and functional manner while aligning the department with the University mission and the Academic Master Plan. I want to express appreciation to the Facilities Services staff for their dedication and good work in pursuit of these goals during difficult circumstances. The accomplishments listed throughout this document are a testament to their commitment to Middle Tennessee State University.

Finally, as we serve the university, it is important that we hear from our customers. Please review this document (as well as our website) for our service delivery. As always, feel free to contact us and let us know how we can serve you better.

-Joe Whitefield

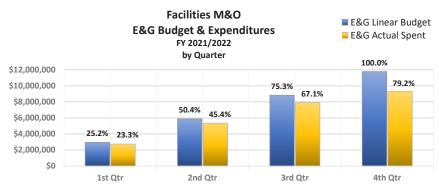

MTSU E & G Expenditures 2021-2022

Central Administration: Accounting Information Services

Lori Yoders

| FY2021/2022 | 1st Quarter | 2nd Quarter | 3rd Quarter | 4th Quarter | End-of-Year Totals | % of Total |
|--|---------------|---------------|---------------|---------------|--------------------|---------------|
| Total M&O E&G Budget | \$7,127,602 | \$7,127,602 | \$6,972,654 | \$7,050,128 | \$28,277,986 | |
| Total M&O E&G Expenditures | \$5,515,693 | \$8,701,102 | \$6,312,480 | \$6,485,823 | \$27,015,098 | |
| -Non-Facilities M&O E&G Expenditures | (\$4,899,606) | (\$4,899,606) | (\$4,793,092) | (\$4,846,349) | (\$19,438,653) | |
| Facilities M&O E&G Budget | \$2,947,105 | \$2,947,105 | \$2,947,105 | \$2,947,105 | \$11,788,420 | 50.6% |
| Facilities M&O E&G Expenditures | \$2,747,119 | \$2,603,841 | \$2,560,455 | \$1,419,511 | \$9,330,926 | 30.076 |

| + Facilities Work for Others (WFO) | \$1,321,736 | \$1,544,753 | \$1,461,885 | \$2,979,481 | \$7,307,855 | 49.4% |
| + Const. Renov. Work for Others (WFO) | \$350,879 | \$462,933 | \$373,183 | \$607,516 | \$1,794,511 | 43.470 |
| Facilities M&O E&G Expenditures with WFO | \$4,419,734 | \$4,611,527 | \$4,395,523 | \$5,006,508 | \$18,433,292 | |

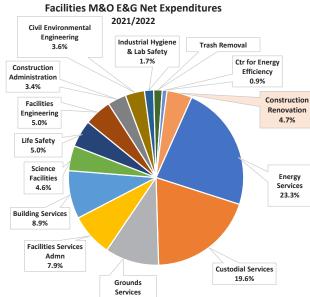

Accomplishments & Highlights 2021/2022

- Updated spreadsheets to utilize data bases & spreadsheets to manipulate the data set with functions & formulas to produce increasing data integrity, data consistency, and better data analytics
- Developed preliminary processes outline for Facilities Accounting's procedures manual
- Utilized Facilities Accounting meetings to build on knowledge as an essential force in the financial development to update data, track changes, & refine the framework of spreadsheets & documents
- Implemented the collection of vendor's certificates of insurance through the Facilities purchasing process

Continued to update the Facilities contract list & contract informa-

Provided continuous accounting support to the Facilities Department, ensured monthly billing demands, accumulated costs to reclassify, & met University cutoffs throughout employee shortages & longterm medical leave

 Continued to provide Notary service to the University

Goals 2022/2023

- Optimize technology to improve efficiency & expand day-today operations & management functions
- Continue to seek new technology to improve workflow by reducing inefficiencies & improving productivity
- Implement University Point of Sale (POS) software & interconnected POS devices for accurate, real-time sales of goods & services to calculate the amount owed by the customer, issue a receipt for the transaction, purchasing, FIFO inventory management with barcodes, financials for month-end billing, cost analysis, & sales trends
- Prepare descriptions for outline to move forward with the documentation of a Facilities Accounting procedures manual
- Input information utilizing Excel Forms to produce an Asset/ Building/Property Facts & Figures reference manual

Construction/Renovation FY21-22

\$ 1,000,000

\$ 500,000

\$ (1,000,000)

- Track, manage, & organize projects with a project management software to achieve all scope & budget goals within the given time constraints
- Continue to work toward providing training

resources for new employees & annual training for current employees/managers/supervisors

 Build on knowledge as an essential force in the financial development to update data, track changes, refine the framework of spreadsheets & documents

- Annually review & update contract lists and contract information
- Encourage employee development, education, and certification

Engineering Services: Center for Energy Efficiency

Linda Hardymon

Accomplishments & Highlights 2021/2022

- Achieved annual utility related agreements with Tennessee Valley Authority and Middle Tennessee Electric (MTE): Generation Partners, Green Power Switch, TVA's Back to Work credit
- Completed annual utilities reports per THEC, NCAA requirements; provided EIA monthly emissions data for required reporting
- Began discussion with MTE regarding monthly billing adjustments/arrangements
- Provided utility cost information for monthly auxiliary and leased properties invoicing
- Supported State Facility Utility Management (SFUM) platform for State of Tennessee
- Updated Physical Facility Inventory Surveys (PFIS) for facilities and capital maintenance under THEC
- Continued partnered support of MTSU Sustainable Campus

- Fee Committee (SCF) under Student Affairs; oversight of awarded sustainable projects and Students for Environmental Action (SEA) projects
- Provided support for utilities/metering/control design specs for new construction (School of Concrete & Construction Management), renovation projects (College Heights Building, Dairy Farm, capital projects), and Cogen Plant gas meter update
- Continued COVID-19 mandatory adjustments/response issues; supported MTSU's 'Charting Our Course Plan'
- Continued serving on the President's Commission on the Status of Women, Women in STEM, and Tennessee Girls in Stem Boards
- Published Summary of Services Annual Report for FY20/21

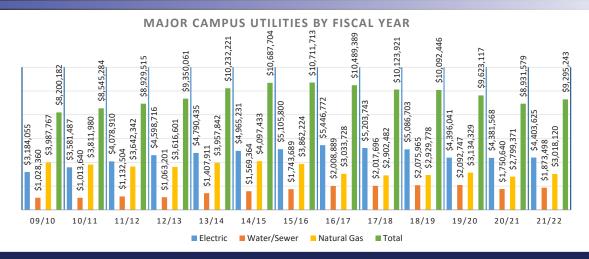

Goals 2022/2023

- Support and employ MultiVista construction documentation program
- Support utilities and sustainability design processes in new campus construction (Applied Engineering Building, outdoor tennis complex)
- Continue 'Green Snapshots' information system for campus sustainability reporting
- Continue participation with building utility information for State Facility Utility Management (SFUM) for State of Tennessee
- Continue working with THEC on updating Physical Facility Inventory Surveys (PFIS) for facilities and capital maintenance
- Continue to communicate with vendors and university de-

- partments with information as needed: utility/energy management data, support, research (new service, demolition projects, audits) and to resolve issues
- Continue support of MTSU Sustainable Campus Fee Program and other sustainable practices on campus
- Continue support of University Academics through internships, student workers, and volunteer opportunities, support classroom instruction for university departments per request
- Support further development and implementation of Power BI Analytics Program for utilities and building surveys
- Continue to collect and maintain thorough data for all utilities for the University

Total Campus Utilities

Recycling Program - MTSU Recycles Linda Hardymon

Accomplishments & Highlights 2021/2022

- Recognized the 50th anniversary of the MTSU Recycling Program
- 1972 **50** 2022
- Highlighted in "The Tennessee Conservationist"
 magazine article recognizing Recycling Program beginnings on campus by Dr.Pat Doyle
- Maintained recycling program to meet campus needs employing student and temporary workers
- Supported recycling efforts for Campus Planning, Capital Construction, and Construction/Renovation projects in multiple building's renovation projects, move in/move outs
- Expanded recycling efforts for maintenance metal recycling
- Supported implementation of Sustainable Campus Fee (SCF) projects submitted by students and others; supported/completed several awarded grants (Health & Human Performance) for water refills
- Continued facing major commodities issues relating to downturn in recycling markets, i.e. vendor availability, restructured recycling for local community, limited access to particular commodity collections; issues with COVID-19; partnership arrangement with Rutherford County; staffing
- Continued athletic recycling support in suites, stadiums, tailgating areas with Students for Environmental Action (SEA)as Sustainable Campus Fund (SCF) project; expanded additional sports venues
- In addition to routine program tasks, responded to 520+ special requests for recycling on campus
- Supported Customs and other special outreach events on and off campus per opportunity

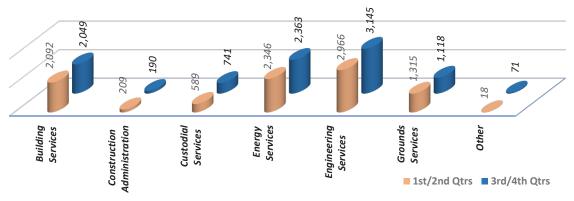

Goals 2022/2023

- Continue to direct Sustainable Campus Fee SCF) sustainability projects water refill stations, solar picnic table, solar trash compactors, etc.
- Explore available initiatives to grow the program, deal with marketing issues, and avoid tipping fees for campus waste going to the landfill with efforts for least impact on the program due to marketing/commodities issues – face the many unique challenges
- Carry on support of recycling education, correcting/promoting recycling issues, improving presence of recycling collection bins on campus
- Continue to support Campus Planning, Capital Construction, Construction/Renovation, and maintenance projects
- Continue to work with athletics staff to provide appropriate recycling at athletic events
- Continue working with MTSU Sustainable Campus Fee Program for recycling project funding
- Improve presence of SCF in Power BI
- Explore partnership opportunities with MTSU initiatives, Recycle Rutherford, Rutherford County Government, existing vendors
- Continue to provide classroom support through guest lectures, environmental seminars, and storm water initiatives
- Continue staff participation in training and development programs

WORK ORDERS CLOSED BY QUARTER 2021/2022

| Work Orders Closed | 1st | Qtr | 2nd | 2nd Qtr | | Qtr | 4th | Qtr | Annual Total | |
|---|-------|------------|-------|------------|-------|------------|-------|------------|--------------|------------|

| Engineering Services | 1,399 | 30.4% | 1,567 | 31.8% | 1,520 | 34.1% | 1,625 | 31.1% | 6,111 | 31.8% |
| Grounds Services/Motor Pool | 716 | 15.5% | 599 | 12.2% | 467 | 10.5% | 651 | 12.5% | 2,433 | 12.7% |
| Other | 11 | 1.2% | 7 | 0.2% | 13 | 0.3% | 58 | 1.1% | 90 | 0.5% |
| Annual Totals | 4,607 | 100% | 4,929 | 100% | 4,459 | 100% | 5,218 | 100% | 19,213 | 100% |

Accomplishments & Highlights 2021/2022

- Hire and train three new Work Order Clerks, producing training materials for future use and central storage via MS Teams
- Worked with shop personnel to submit open work order progress notes, enhancing communication with FSD personnel, Housing staff, and other customers
- Coordinated with unit directors and leads to perform Mainsaver record audits, including preventative maintenance items and personnel records
- Continue to provide new and modified Argos reports to FSD Accounting and others; implement automated reports for Procurement, President's Office, Food Services
- Assisted shops with better use of Mainsaver, including improved queries and work queue views and ability to assign contractors for better tracking of outsourced items
- Converted daily verification process of man-hour data entry from manual/paper-based system to electronic (Argos to Power BI)
- Coordinated with FSD Systems Administrator for redesign, improved customer survey process, data availability in Power BI
- Supported FSD Systems Administrator in migrating current monthly, annual, and periodic Mainsaver reports to Power BI, streamlining SCF project tracking in Power BI

http://www.mtsu.edu/facserv/ work request forms.php

Goals 2022/2023

- Assist with upgrading Mainsaver to latest version
- Continue to investigate use of online forms and handheld devices to input and access Mainsaver data; explore integrating Mainsaver Connect into shop workflow
- Identify ways to improve accuracy and consistency of Mainsaver data to support continued efforts to analyze and report on FSD activities
- Continue to document and compile work order processes and procedures to produce operations manual
- Continue to advance Mainsaver event notification for work order activities for FSD and non-FSD personnel
- Redesign, simplify work request web forms for ease of use
- Coordinate with FSD Systems Administrator to develop Power BI reports for specific customer groups; propose adjustments to Power BI reports for improved access to data
- Digitize work order storage and supporting documentation for easier retrieval

Maintenance Projects: MP-2's

As part of the Facilities Services (FSD) maintenance project process, MP-2 forms are used to track those maintenance projects which are major repair or replace projects beyond the routine, often involving deferred maintenance, multidiscipline event-related, or non-budgeted repairs that are \$5,000 or greater.

For FSD funded projects that are not considered of a Construction/Renovation nature, outside our normal operating budget, and needing expenditure approvals from a budgetary authority, completion of an MP-2 form provides a preliminary estimate for project approval and funding, assignment of a tracking project number, and allows all elements of projects to be accurately tracked until completed.

| MP-2 Project Sumi | mary 2021, | /2022 |
|-------------------------------|------------|----------------|
| Subdepartment | # Projects | Project Value |
| Building Services | 18 | \$563,251.11 |

Customer Satisfaction Survey

The Facilities Services Department initiated a Customer Service Satisfaction Survey in 2016 to provide better communication with our campus community. The valuable feedback has provided better understanding of Customer's expectations and satisfaction with our level of service.

The feedback has also allowed Facilities Services to evaluate our systems and procedures and to continue to improve our customer service culture.

...handled in a very timely manner!

Thank you for all you do!

...Shop 90 is always // courteous & helpful!

| 2021/22 Work Order Customer Satisfaction Survey | | | | | | | | | |
|--|-------|--|--|--|--|--|--|--|--|
| Did you receive an email when the work order was opened? | 98.9% | | | | | | | | |
| Did you receive an email when your work order was completed? | | | | | | | | | |
| Did the Corrective Action adequately address the problem or requested work? 4.77 | | | | | | | | | |

| Scale: 5-Very Satisfied 1- Dissatisfied Responses: 273 | | | | | | | | | |

Jeff McConnell Russell Miller Anthony Gentile

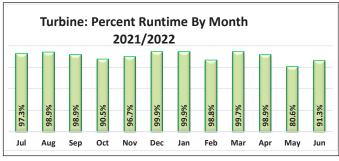

Accomplishments & Highlights 2021/2022

Heating Plant

- Revised Cogen Boiler Plant Operator training manual and made it electronic
- Continued Cogen PM schedule on critical equipment to reduce unscheduled outages/equipment downtime
- All Operators included in performing PMs to increase equipment awareness, encourage ownership
- Developed PM strategies for Campus' Mechanical Rooms, including rotating equipment, heat exchanger profiling to gauge performance, & water quality testing
- Increased security for Cogen Plant to prevent unessential people entering
- Increased environmental awareness as regards to Diesel Dike area, particularly documentation & reporting
- Successfully completed 4,000 Hr Condition Assessment of Solar turbine & generator set
- · Heating Plant projects
 - Installed new hydrogen sensor in battery room
 - Repaired #3 boiler feedwater pump; purchased a new feedwater pump
 - Received successful inspection report for Deaerator tank during annual Maintenance
 - o Installed new gas meters in boiler gas lines

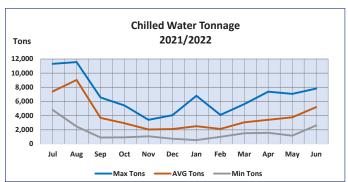

Goals 2022/2023

- Develop strategy to ensure peak efficiency energy input to mechanical rooms; maximum energy savings from overheating water used as a heating medium
- Continue all PM programs to drive down maintenance costs as well as catastrophic failures
- Create automated sequencing logic based off relational information gained from Chiller plants for future endeavors

Chilling Plant

- Successfully recruited and hired a Building Energy Management supervisor
- Successfully completed annual maintenance event for 10 existing plant chillers
- Established operational relationship between Central Plant & Satellite Chiller plant through extensive testing/operational knowledge; streamlined operation of plants
- Repaired Miller Ed cooling tower, increasing reliability of the plant
- Chilling Plant projects
 - Replaced South tower condenser water return line in tower sump; sealed and wrapped for protection against oxidation & premature failure
 - Replaced North tower condenser water pump; added house pad to assist in replacing spare condenser water pump
 - o Improved lighting in specific areas of the plant

Energy Services: HVAC & Building Management Systems Jeff McConnell Les Mayberry Jeff Henderson Keith Pinkston Russell Miller

Accomplishments & Highlights 2021/2022

Building Management Systems

- Continued optimization/improvement of Desigo graphics
- Enhanced network reliability while increasing speed by cleaning up & streamlining comm protocols & firewalls
- Resolved root causes of several sources of repeat work orders including
 - Low air pressure on the building at BRAGG causing hot water valves not to close completely
 - Configuration issue in room HVAC controllers across multiple buildings causing hot water valves to seem to be not functioning properly
 - Programming changes to Sam Ingram chiller to prevent it from operating as unreliably
 - Identifying pulley issue on Sam Ingram AHU 3 causing it to routinely snap belts & lose temperature control of the conference center
- Began using remote notification capability of Desigo to improve after hours response time to problems, often before they even had a chance to become Work Orders from occupants

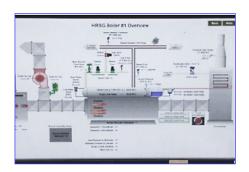

HVAC

- Managed 23 maintenance projects for housing and academics buildings
- Changed 1000 filters in fan coil units for Housing complex
- Implemented PM process to assist with condensate drainage issues for Housing complex
- Managed 61 maintenance projects campus wide

Goals 2022/2023

- Establish baseline & historical data on equipment to shift work from being primarily reactive to proactive
- Continued use & development of Power BI to increase workflow management efficiency, reduce administrative downtime
- Efficiently leverage contracts for additional and/or specialized manpower resources
- Reduce WO volume, increase response efficiency by continuing to learn the TriaTek software platform and associated equipment
- Continue to develop workflow processes for filter change management
- Continue to develop strategies to assist Housing manage **HVAC** workload

Accomplishments & Highlights 2021/2022 **Systems Engineering**

- Supported construction administration for the new School of Concrete and Construction Management Building
- Completed COVID-19 related air quality improvement projects in the Chris Young Café and Murphy Center

GIS and Locating

- Completed 862 utility locate tickets for contractors working on campus
- Maintained ongoing coordination with contractors and designers to assist with timely resolutions of utility routing conflicts and questions
- Supported documentation of the underground utilities at the new Concrete and Construction Management Building

Elevators & Generators

- Completed 532 total elevator work orders and inspections with associated spill prevention PM activities
- Completed 410 total generator work orders and inspections with associated spill prevention PM activities
- Installed ADA placards on all elevators per new state code
- Installed and updated Maintenance Control Procedure Manuals and Electrical prints for all 82 elevators and lifts on campus per new state code

Information Technology/Operational Technology (IT/OT)

- Digitized training material for critical work groups
- Championed Teams for improved departmental communication

Key Shop

- Cut a total number of 2,398 keys in the following areas: 822 academic, 1064 housing, 25 auxiliary, and 487 other
- Completed rekeying of Murphy Center and Rutledge Hall
- Added 9 additional card access doors for a total of 992 readers on campus

Goals 2022/2023

Systems Engineering

- Provide review and ongoing participation in the construction phase of the Science Building Air Valve Replacement and Tennis Complex projects
- Conduct design reviews and provide engineering input for the design of the new Applied Engineering building and Student Athletic Performance Center

GIS and Locating

- Issue an RFP and coordinate surveying services to verify & document existing underground site utilities across campus
- Incorporate designer information from new utility surveys into existing MTSU ARCGIS mapping to provide accurate information for future use

Key Shop

Support the opening of the new School of Concrete and Construction Management Building

Elevators & Generators

- Support 2022-2023 Elevator Modernization capital maintenance project with the updates of elevators in KUC, Cason Kennedy Nursing Building, Walker Library (4 Passenger elevators), and Peck Hall #1
- Continue improving barcode system procedures to provide more accurate equipment inspection information and diagnostic capabilities

Information Technology/Operational Technology (IT/OT)

- Integrate 360 degree images into floor plans to create Virtual Walking Tours and document critical components such as shut-off valves and breakers
- Expand Facilities Services Digital Transformation with process and reporting enhancements
- Create a campus wide "at a glance" utility dashboard
- Automate data collection from critical systems on campus
- Provide input and direction for new access control systems serving Capital Outlay Projects including the Student Athletic Performance Center and the new Applied Engineering Building

Environmental Health & Safety (EH&S) Services

Alan Parker Mark Hatcher Jake Turner Katherine Green

Accomplishments & Highlights 2021/2022 Fire & Life Safety Services

- Completed Campus Wide Siren System Control System repairs and updates
- Removed 192 Guardian III kitchen hood systems from the Womack Lane Apartment complex - created fiscal savings of \$82,560 every 5 years or \$16,512 per fiscal year
- Completed two Sprinkler System repair projects in Greek Row House #3 and #5 – repaired/replaced main lines that were corroded or leaking
- Added 2 additional monthly inspection programs for Area of Refuge Phones and Automated External Defibrillators designed to provide better service and protection for the Campus community
- Updated inspection processes for all preventative inspections and maintenance of Life Safety Systems by transitioning from a manual process to scannable barcodes and electronic filing of inspections

Civil & Environmental Engineering Services

- Submitted 2021/2022 TDEC Annual Report
- Created new MOU with City of Murfreesboro (with new metrics) for 2022/2023 renewable through June 2031
- Conducted numerous Stormwater events & activities
- Coordinated with Campus Planning/Construction Management on stormwater & water utilities to ensure proper design & installation on new Applied Engineering Building, Tennis Complex, & Student Athletic Performance Center

Goals 2022/2023

Fire & Life Safety Services

- Implement replacement schedule for fire extinguishers on campus at the end of service life
- Assist with bringing Murphy Center structural repair project to a conclusion as the primarily liaison with the TN State Fire Marshal's Office
- Support design & construction for Campus Wide Life Safety Systems capital maintenance project for Honors, Dyslexia, Mass Comm, Cope Admin, Todd Hall, Alumni Memorial Gym, & Wright/ Saunders

Industrial Hygiene and Laboratory Safety

- Complete Campus Chemical Hygiene Plan with input from the Chemistry and Biology departments
- Prepare new Concrete and Construction Management building with proper cautionary laboratory signage before student occupation for classes and labs
- IHLS personnel certifications for mold inspections
- Calibration of EH&S equipment and instrumentation

Industrial Hygiene and Laboratory Safety

terials SPCC and IACU

cal hazardous waste

files for IHLS into Power BI

regulatory agencies

Completed over 15,000 weekly, semi-annual, and annual inspections for compliance with Federal, State, and Local

guidelines related to existing labs, lab hoods, hazardous ma-

Managed identification, collection, packaging, transporta-

tion, and disposal of approximately 4,803 pounds of chemi-

Supervised 13 asbestos containing materials (ACM) sampling

and removal efforts campus wide by MTSU and contractors;

Completed 4 Low-Level Waste Surveys, 13 General License

Radioactive swipes with reporting, and 8 X-ray inspections

and Conservation (TDEC) Division of Remediation (DRH)

Incorporated lab inspections as well as additional working

Maintained compliance with all associated State and Federal

with reporting to the Tennessee Department of Environment

conducted 37 mold work orders internally by EH&S

Civil & Environmental Engineering Services

- Continue working with Campus Planning/Construction Management on upcoming campus Utilities projects
- Coordinate domestic water, sanitary sewer, and stormwater repair work on campus with the City of Murfreesboro
- Update campus drainage map as new projects arise
- File NOI with TDEC for coverage under the new NPDES permit and obtain NOC for the City and MTSU
- Continue working with the City of Murfreesboro on Stormwater Education and Outreach to meet NPDES permit compliance requirements

Accomplishments & Highlights 2021/2022

- Status of 2021-22 Goals:
 - Main waste line at the Student Services Building is working so well that it has been placed on the ongoing monitoring list
 - Additional 150+ Sternberg lights were retrofitted with LED lamps during the past year
 - The PFIS records for roofing, electrical and plumbing were updated for all E&G buildings
 - Multiple new sources of potential candidates for current vacancies were identified
- Completed over 4,000 individual service requests for FY 2021-22
- Completed 56 maintenance and special projects valued at \$5,000 or more
- Produced, adopted, and submitted completed Water Intrusion Plan for MTSU to the State of Tennessee
- Continued the process of periodic updating of PFIS records for each building on campus

KOM Project

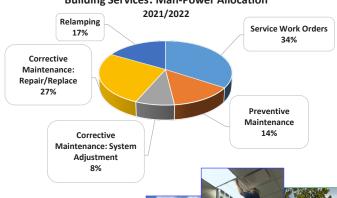

Valve Replacements

Goals 2022/2023

- Continue to retrofit the Sternberg light fixtures on campus with LED lamps to improve the safety and security on campus for the student population, visitors, and the larger campus community to improve campus lighting reliability with the added benefit of reducing MTSU's carbon footprint
- Continue the process of periodic updating of PFIS records for each building on campus
- Develop a responsible party training program for the newly adopted MTSU Water Intrusion Plan

Construction Administration & Capital Maintenance Services

Julie Morrell Earl Bogle Lane Merryman Michelle Thomas

Accomplishments & Highlights 2021/2022

- Completed Floyd Stadium Stairs Replacement; replaced rusted steel pan stairs with pre-cast concrete
- Started the Job Order Contract to replace wiring, update the transformer, and add a generator to the College Heights Campus Police Building
- Completed the School of Concrete and Construction Management (SCCM) Recording Studio Relocation in August 2021
- Started new roofing projects for the Tennessee Livestock Center and Cope Administration Building in May and June 2022, respectively
- Replaced all the exterior glass curtainwall at Murphy Center with unique, electrochromic (electronically tintable) Sage glass

| 2021/2022 Capital | Projects Summary | | | | | | |

TN Livestocvk Center Re-Roof

Goals 2022/2023

- Improve communication of construction caused disruptions to stakeholders and the campus community overall; work with Campus Planning during Program and Design phases for better understanding of Construction Schedule timelines
- Begin construction of the Student Athlete Performance Center
- Continue to gather and update requests for Capital Maintenance projects and Archive project data into Capital
 Construction common drive for historical data preservation; work with Facilities ITD to help transfer information to more accessible and up to date platform
- Finish construction on the new School of Concrete & Construction Management Building September 2022; complete the structural repair portion of Murphy Center Curtainwall Replacement project January 2023
- Continue to participate in standardizing and updating Facilities work and other standards
 - Support for Campus Planning for continued standardization of work completed on campus locally as well as Capitally funded projects
 - Support Facilities Services for standardization for continuity of equipment, processes, and scope of work
- Continue to look for opportunities to participate in continuing education and webinars to keep up to date on construction processes and technologies

Accomplishments & Highlights 2021/2022

- Updated Special Project Request form and process
- Rebid university electrical contract
- Utilization of Microsoft Teams for virtual meetings
- Major completed renovations include:
 - o SAG 209 TAF classroom update equipment and room finishes
 - o MGB 104 Data Science department relocation
 - MEC 2nd Floor Songwriting Center lobby and classroom construction
 - o MEC 3rd Floor Asian Studies relocation
 - Peck Hall 108 Historical Preservation relocation
 - o Peck Hall 207– New classroom renovations
 - o SFA 117 Choral room improvements
 - o Fairview 102 STEM department office renovation
 - o CKNB 105 & 106 Physician's Assistant Program classroom renovations
 - o JUB 330 True Blue TV Production Services relocation
 - Vocational Ag- Shop improvements for Food System Training Facility

Songwriters Center Lobby Miller Education Building

Goals 2022/2023

- Update Construction/Renovation webpage
- Utilize Power BI for PFI updates
- Rebid university Direct Order Contract
- Successfully complete major renovations:
 - o TAF classroom renovations in Honors, McFarland, KOM, BAS
 - o Songwriting individual break-out room renovations
 - o Health Services paint and flooring replacement
 - o Center for Innovation in Media collaborative area renovation
 - o University Police renovations at College Heights
 - Creative Marketing Solutions renovation at Fairview
 - o Walker Library monumental stair railing refinishing
 - ACE Learning Center playground enhancements and expansion
 - Scarlett Commons multiple apartment renovations

Choral Room SFA 117

STEM Office Renovation Fairview 102

Accomplishments & Highlights 2021/2022

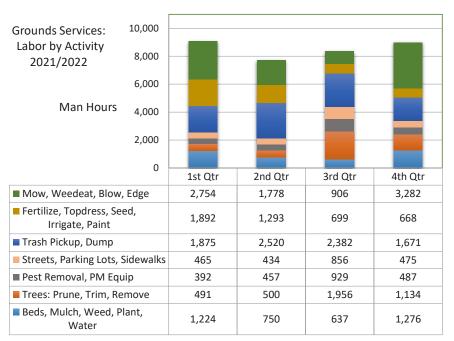

- Continued sidewalk grinding to remove small imperfections and uneven spots on sidewalks around campus
- Purchased GPS/autonomous mowers to mow special areas on campus
- Repaired multiple areas of sidewalks on campus
- Continued tree replacement program
- Performed turfplaning/topdressing project on intramural fields to help improve field quality and drainage
- Continued re-landscaping of areas on campus
- Continued training opportunities

Goals 2022/2023

- Improve irrigation system on intramural fields
- Perform second round of drainage improvements to soccer field
- Continue sidewalk/hardscape improvements
- Continue re-landscaping areas of campus
- Continue tree replacement program
- Explore more efficient way to paint athletic fields
- Continue training

Accomplishments & Highlights 2021/2022

- Monitored and responded to changing COVID-19 response plan for Motor Pool operations and fleet reservations as we have returned to a normal amount of vehicle reservations
- Continued to upgrade shop equipment
- Met all state requirements for underground fuel storage tanks
- Continued to improve reservation process of Motor Pool vehicles

Goals 2022/2023

- Explore more efficient ways for cleaning of fleet vehicles
- Continue upgrading of Motor Pool fleet vehicles
- Implement a computerized fleet vehicle reservation process
- Continue to upgrade shop equipment to maximize efficiency
- Continue training

Custodial Services

Connie Hagberg Brenda Wunder

Accomplishments & Highlights 2021/2022

- Brought contractor service on-line for Housing: Corlew,
 Deere, Nicks Halls: contract service for Grounds Services
 for garbage truck driver position
- Discussion with Housing Administration and custodial contractor service for bringing Cummings Hall on-line and performing summer turnover service in Scarlett Commons
- Ensured the custodial contractor service met contract terms
- Based on COVID-19 cleaning recommendations and Campus Inventory Reports, hired supplementary employees through contractor service; distributed disinfection kits; continued weekly pick-up service/ distribution of microfiber cloths and cleaning wipes to faculty
- Serviced hand sanitizer stations throughout campus
- Completed mandatory and recommended training sessions, as required by the University and FSD/EH&S

Goals 2022/2023

- Bring School of Concrete and Construction Management Building on-line – Fall semester
- Bring Cummings Hall on-line Fall semester
- Ensure custodial contract terms are upheld, as written
- Complete mandatory and recommended training required by the University and FSD/EH&S

Accomplishments & Highlights 2021/2022

- Assigned safety training topics in Safe Collages to Facilities Services employees according to EH&S team Recommended Training List
- Updated Safe Colleges training records for employees who completed off-line training sessions
- Coordinated topic-specific safety training (requiring both classroom and hands-on instruction) for Facilities Services and other campus departments
- Prepared training reports for FSD managers or supervisors

Goals 2022/2023

- Serve as Administrator/Department Coordinator for Safe Colleges; input training assignments according to Recommended Training List prepared by EH&S; input any off-line training completed by Facilities Services employees; prepare training completion/outstanding reports, as necessary, for review
- Review and schedule any specialized safety training topics as requested by FSD Directors or Supervisors

SafeColleges Training

These training opportunities available for campus departments, and more, are provided to enhance job performance, promote safety, and comply with laws and regulations.

20

Excerpts from Campus Master Plan 2015 - 2025

Facility Assessment: Education and General Use Facilities

Like many universities and colleges, MTSU has simultaneously experienced significant growth and increased fiscal constraints. These conditions have led to postponement of major repairs and replacement of facilities and infrastructure. This delay, combined with aging facilities, leads to a degradation of the facilities and an increased backlog of maintenance and capital renewal projects commonly referred to as deferred maintenance.

Legend:

- Current Condition Score (0-100) determined by the Physical Facilities Survey Score as of August 2015 (PFIS).
- (2) Site Suitability Score (High, Medium, Low) determined by factors including various land uses, code issues, and original campus structure.
- (3) Physical Building Rating (A-D) determined by combing the Current Condition and Site Suitability Scores as shown in the matrix.
- (4) Existing Program Suitability (A-D) determined by the factors including quantity and quality of space

MTSU Sustainable Campus Fee Project List

Joe Whitefield Linda Hardymon

Funded by a fee initiated by the MTSU student body, administered by the Division of Student Affairs, and supported by the Tennessee Board of Regents at the time, the intent of the MTSU Sustainable Campus Fee Program is to decrease consumption of non-renewable energy with a directed portion for purchasing 'green power' from TVA to facilitate production of electricity from wind, solar power, and methane gas as a clean alternative to traditional energy sources. The reminder of the funds are used for local campus projects.

MTSU Sustainable Campus Fee (SCF) Program
