If a faculty assigns an Incomplete, the Incomplete Final Grades menu will display which will allow you to set the Incomplete Final Grade and Extension Date. The default grade will be an F and the default extension date will display as appropriate for the term. You can change the default grade to any valid grade that the student has earned to that point, and you can use the default extension date or shorten it to any earlier date if you wish to limit how long the student has to complete any outstanding assignments. The Incomplete will then be automatically converted to the Incomplete Final Grade posted after the Extension Date has past.
