**Total Number of Disciplinary Cases: 542** 

A **disciplinary case** is defined as a student or organization that has been charged with a disciplinary offense. The case number does not reflect the total number of disciplinary referrals made to the office. One student may have multiple cases and one case may have multiple violations.

The following data presents a synopsis of the breakdown by gender and classification of the students who had discipline cases with the Office of Judicial Affairs and Mediation Services during the specified time period.

The following chart presents the number of violation types the office adjudicated. The violation type total number reflects the total number of times this violation was assigned to a student. The total number does not reflect how many times the student was found in violation of that specific rule. The total number of violation types will exceed the total number of disciplinary cases handled by the office. One student may have multiple violation types within one disciplinary case. The percentage reflects the percentage of the total number of all violations.

\*\*\*The statistics contained in this report represent disciplinary cases adjudicated by the Office of Judicial Affairs and Mediation Services for the time period indicated. Formal charges may have also been filed with the MTSU police department and/or the Department of Housing and Residential Life. It is possible that a single violation may appear in reports from all three departments. Disciplinary matters that were adjudicated solely by the Department of Housing and Residential Life are not reflected in these statistics.

## **Noteworthy Observations**

Compared to the previous academic year:

- "Theft" violations increased.
- The incidence of "Academic Misconduct" continues to be above 200 cases per year. The number of cases increased over the past year, even though our total number of cases was smaller.
- Freshman and sophomores continue to account for the majority of students seen in the office. Males continue to be referred more often than females.
- "Alcohol" and "Public Intoxication" violations decreased significantly. Speculatively thinking, it appears this could be due to the fact that several fraternities left Greek Row/on-campus housing, students are more aware of the possible repercussions for violating the alcohol policy, and the two University Housing & Residential Life administrators who handle discipline were both on maternity leave and therefore referrals were down.

Additionally, the Coordinator for Judicial Affairs was on maternity leave, causing lower level alcohol offenses to be adjudicated internally in Housing/ Fraternity & Sorority Life. Lastly, Fraternity & Sorority Life was not fully staffed for the 2012-2013 academic year and consequently House Inspection referrals reduced dramatically.

## **Educational Outreach**

The Office of Judicial Affairs and Mediation Services conducted close to 100 educational presentations for the time period specified. The office did educational presentations in approximately 50 University 1010 classes. Other audiences included the Academic Success Series participants, CUSTOMS, athletics, the Greek community, study abroad students, graduate teaching assistants, faculty members, and special student populations.
