## FERPA Reminders

As a reminder, please ensure student educational records and/or student health records are only accessed for legitimate educational purposes and/or for public health purposes (while ensuring an individual's health care privacy rights are also protected). Essentially, if you do not need to have access to a particular student's educational records (and do not have written permission to access them by the student), please refrain from accessing the student record, which helps to ensure the University's compliance with its federal obligations concerning the privacy rights of students under the Family Educational Rights and Privacy Act ("FERPA").

For additional information and/or questions, please refer to the following offices and resources:
