

Career Development Center

Middle Tennessee State University

Employment Offers - Accepted 2011-2012

This report represents graduates from the **August 2011**, **December 2011** and **May 2012** graduating classes. All three classes were surveyed three times each. The first survey was sent to students who had applied for graduation. The second and third surveys were sent to graduates who were actually awarded degrees. All lists were provided by the University Registrar and all surveys were administered by the Career Development Center through Emma Email Marketing program. The survey responses were input into Lightning JobSource and combined with results received by the Career Development Center from students and employers.

This employer list represents only employment offers **accepted** in positions **not** held prior to graduation (i.e. new positions only). It does not represent any students who were already employed in positions which were not a result of their education. This should be considered when comparing this year's responses to previous years' responses.

Employers with more than one occurrence have the number listed in parenthesis, and results include both offers accepted and declined.

Employers Hiring Bachelor Degree Recipients:
