## Welcome to the College of Liberal Arts at MTSU!

We look forward to working with you during your CUSTOMS session. You will meet one on one via Zoom with your College Academic Advisor for advising and registration.

To best prepare for your advising session, please complete the following steps:Read through all the materials in the CUSTOMS packet.Review course material for your desired major - check your MTMail for information from your advisorReview MTSU's General Education offerings included in this packet and found on our CUSTOMS 2023 webpage
$\square$ Be ready with all your questions and we will be happy to answer.

Using the materials referenced above, begin to think about some courses of interest that will work within your degree plan. You can start to form some ideas using our course planning document in this packet and on our CUSTOMS 2023 webpage.

We look forward to your virtual advising session where we will discuss your Academic Map and assist you in registering for Fall 2023.

## Welcome to the True Blue family!

## General Education Requirements (41 credits total)

## Communications - 9 credits

(Must earn C- or higher in ENGL 1010K, ENGL 1010, and ENGL 1020)

- ENGL 1010: Expository Writing *(ENGL 1009-K only)
- ENGL 1020: Research and Argumentative Writing *
- COMM 2200: Fundamentals of Communication

## History - 6 credits (choose two)

- HIST 2010: Survey of US History I *
- HIST 2020: Survey of US History II *
- HIST 2030: Tennessee History *
- HIST 2040/AST 2040: Survey of African American History I
- HIST 2050/AST 2050: Survey of African American History II

Humanities - 9 credits (choose three)

- ANTH 2210: Introduction to World Prehistory
- ART 1030: Art Appreciation
- ART 1920: Survey of Western Art I*
- DANC 1000: Dance Appreciation *
- HIST 1010: Survey Western Civilization I *
- HIST 1020: Survey Western Civilization II *
— HIST 1110: Survey World Civilization I*
- HIST 1120: Survey World Civilization II *
- MUS 1030: Introduction to Music
- MUHL 1610: World of Music
- PHIL 1030: Introduction to Philosophy *
- THEA 1030: Theatre Appreciation

One course in this section must be from the following choices:
(Must finish ENGL 1010 and 1020 first)

- ENGL 2020: Themes in Literature and Culture *
- ENGL 2030: The Experience of Literature*
- HUM 2610: Foreign Language in Translation *

Mathematics - 3 credits (choose one)

- MATH 1010 or 1010K: Mathematics for General Studies
- MATH 1530 or 1530K: Applied Statistics
- MATH 1630: Math for Managerial, Social, and Life Sciences ${ }^{\circ}$
- MATH 1710 or 1710K: College Algebra
- MATH 1720: Plane Trigonometry ${ }^{\circ}$
- MATH 1730: Pre-Calculus ${ }^{\circ}$
- MATH 1810: Applied Calculus $I^{\circ}$
- MATH 1910: Calculus $I^{\circ}$

## Freshman Seminar - 3 credits (optional)

(Required for Scholars Academy)

- UNIV 1010 or UNIV 1010K: University Seminar

Natural Sciences - 8 credits (choose two)

- ASTR 1030/1031: Exploring the Universe ${ }^{0} \infty$
- BIOL 1030/1031: Exploring Life * 0
- BIOL 1110/1111: General Biology * 0
- BIOL 2010/2011: Human Anatomy and Physiology I * 0
- BIOL 2020/2021: Human Anatomy and Physiology II * 0
- CHEM 1030/1031: Chemistry for Consumers $\infty$
- CHEM 1010/1011: Introductory General Chemistry I * 0
- CHEM 1110/1111: General Chemistry I * 0
- GEOL 1030/1031: Introduction to Earth Science *
- GEOL 1040/1041: Physical Geology *
- PEOL 1030: Physical Geography
- PHYS 1110: Discovering Physics * 0
- PHYS 2010/2011: Non-Calculus Based Physics I * 0
- PHYS 2110/2111: Calculus-Based Physics I* 0
- PSCI 1030/1031: Topics in Physical Science $\infty$
- PSCI 1130/1131: Contemporary Issues in Science * 0

Social \& Behavioral Sciences - 6 credits (choose two)

- AAS 2100: Introduction to African American Studies
- ANTH 2010: Cultural Anthropology
- ECON 2410: Principles of Macroeconomics * 0
- ECON 2420: Principles of Microeconomics * 0
- EMC/JOUR/RIM 1020: American Media and Social Institutions
- GEOG 2000: Introduction to Regional Geography *
- GS 2010: Introduction to Cross-Cultural Experiences *
- HLTH 1530/1531: Health and Wellness
- PS 1005: American Government and Politics
- PS 1010: Foundations of Government
- PSY 1410: General Psychology $\infty$
- RS 2030: Religion and Society
- SOC 1010: Introductory Sociology *
— SOC 2010: Social Problems *
- WGST: 2100: Introduction to Women’s Studies *

[^0]College of Liberal Arts explore/engage/enrich/earn

## COMMUNICATION (9 credit hours) ENGL 1010 and 1020 must be passed with a C- or better.

ENGL 1010: Expository Writing. Emphasis on learning to adapt composing processes to a variety of expository and analytic writing assignments.
ENGL 1020: Research and Argumentative Writing. Emphasis on analytic and argumentative writing and on locating, organizing, and using library resource materials in the writing.

COMM 2200: Fundamentals of Communication. Principles and processes underlying human communication. Emphasis on public oral communication including research, critical thinking, organization, presentation, and listening.

## HISTORY (6 credits) Choose two.

HIST 2010: Survey of United States History I. Survey of the political, economic, social, cultural, and diplomatic phases of American life in its regional, national, and international aspects. Discusses the era from the beginning to 1877. HIST 2010 is NOT a prerequisite for HIST 2020.
HIST 2020: Survey of United States History II. Survey of the political, economic, social, cultural, and diplomatic phases of American life in its regional, national, and international aspects from 1877 to the present. HIST 2010 is NOT a prerequisite for HIST 2020.
HIST 2030: Tennessee History. The role of the state in the development of the nation.
HIST 2040/AST 2040: Survey African American History I. The role of African Americans in establishing and shaping the American nation. Covers their historical development and contributions to American art, music, literature, and religion.
HIST 2050/AST 2050: Survey African American History II. The role of African Americans in shaping the American nation and creating a twentieth-century racial identity. Covers their historical development and examines their contributions to American art, music, literature, and religion.

## HUMANITIES ( 9 credits) Choose three. One course must be Literature.

ANTH 2210: Introduction to World Prehistory. Cultural change over the past four million years as interpreted through archaeology. The development of hunting and gathering through the origins of agriculture and the appearance of the world's first civilizations.

ART 1030: Art Appreciation. An introduction to art structure and styles of art; relationships between past ideas and current trends.
ART 1920: Survey of Western Art I. Survey of the arts of the Western tradition from the Paleolithic era through the Gothic period.
DANC 1000: Introduction to Dance. Dance as an expressive art form, a symbolic language, and an integral aspect of world cultures. Lecture/discussion course for the general student population. Not a performance or activity course.

HIST 1010: Survey Western Civilization I. A survey of Western humanity from the earliest cultures to 1715.
HIST 1020: Survey Western Civilization II. A survey of Western humanity since 1715.
HIST 1110: Survey World Civilization I. A global approach to history, with cultural interchange as a major thematic focus; reasons for the rise and decline of civilizations.

HIST 1120: Survey World Civilization II. The impact of Western expansion upon the indigenous civilizations of Asia, Africa, and the Americas; their mutual interchange in the creation of the modern world.

MUS 1030: Introduction to Music. Perceptive listening to music of various styles and cultures including popular and world music and Western classical concert music.

MUHL 1610: World of Music. A study of culture and music through a chronological survey of styles, genres, and composers of Western art music and through the comparative study of various non-Western musical practices.

PHIL 1030: Introduction to Philosophy. Basic philosophical problems suggested by everyday experience integrated into a coherent philosophy of life through comparison with solutions offered by prominent philosophers.

THEA 1030: Introduction to Theatre. Overview of theatre as an art form. Appreciation and understanding of the production process.
Literature Courses (choose one):
ENGL 2020: Themes in Literature and Culture. Traces a specific theme or idea through a number of literary texts that reflect different historical and cultural contexts. Subject will vary.
ENGL 2030: The Experience of Literature. The reading of a variety of literary types which illuminate themes and experiences common to human existence.

HUM 2610: Foreign Literature in Translation. Representative works of French, German, and Hispanic authors in English translation. No foreign language proficiency required.

College of Liberal Arts

## MATHEMATICS (3 credits) Choose one.

MATH 1010: Mathematics for General Studies. Prerequisites: Two years of high school algebra and a Math Enhanced ACT of at least 19 or DSPM 0850 or COMPASS placement. Topics includes logic, sets, algebraic reasoning, probability, statistics, and consumer mathematics.

MATH 1530: Applied Statistics. Prerequisites: Two years of high school algebra and a Math Enhanced ACT 19 or greater or equivalent. Descriptive statistics, probability, and statistical inference. The inference unit covers means, proportions, and variances for one and two samples, and topics from one-way ANOVA, regression and correlation analysis, chi-square analysis, and nonparametric. Required for Nursing majors.

MATH 1630: College Mathematics for Managerial, Social, and Life Sciences. Prerequisites: Two years of high school algebra and a Math Enhanced ACT greater than $\mathbf{2 5}$ or MATH 1710. Topics include solving systems of linear equations, linear programming, mathematics of finance, set theory, and probability theory. Required for College of Business majors.

MATH 1710: College Algebra. Prerequisite: DSPM 0850 or two years of high school algebra; a Math Enhanced ACT 19 or greater or COMPASS placement. Topics include functions-linear, quadratic, exponential, and logarithmic; analysis of graphs; linear systems; inequalities; counting principles; and probability. Not open to those who have had MATH 1730. Graphing calculator required. Required for Recording Industry majors.
MATH 1720 Plane Trigonometry. Prerequisite: Strong background in algebra recommended. Trigonometric functions of the acute and general angle, circular functions, graphs of
trigonometric and inverse functions, identities, solutions of right and general triangles, equations, complex numbers, and vectors. Not open to those who have had MATH 1730. Graphing calculator required.

MATH 1730: Pre-Calculus. Prerequisite: MATH 1710 or successful completion of high school precalculus course. An integrated and rigorous study of the algebra and trigonometry needed to successfully attempt calculus. Emphasis on functions, their analysis, and their applications. Level of algebraic sophistication developed above that found in MATH 1710. Topics include exponentials and logarithms, analysis of graphs, and word problems. Graphing calculator required.
MATH 1810: Applied Calculus I. Prerequisite: MATH Enhanced ACT 19 or greater or MATH 1710. Introduces mathematical modeling applied to real-world problems. Sets, functions, inverse models, limits, continuity, first and second order model building, single variable differentiation, implicit differentiation, inverse problems (exponential and log models). First and second derivatives used to study the behavior of real-world applications.

MATH 1910: Calculus I. Prerequisite: MATH 1730 with a grade of C or better or Math ACT of $\mathbf{2 6}$ or better or Calculus placement test score of $\mathbf{7 3}$ or better. An introduction to calculus with an emphasis on analysis of functions, multidisciplinary applications of calculus, and theoretical understanding of differentiation and integration. Topics include the definition of the derivative, differentiation techniques, and applications of the derivative. Calculus topics related to trigonometric, exponential, and logarithmic functions also included. Course concludes with the fundamental theorem of calculus; the definition of antidifferentiation and the definite integral; basic applications of integrations; and introductory techniques of integration. Graphing calculator required.

## NATURAL SCIENCES (8 credits) Choose two.

ASTR 1030/1031: Exploring the Universe. A general introduction to astronomy through an overview of planets, stars, systems of stars, and the overall structure of the universe. Topics will be discussed by answering questions such as "How do you weigh stars?" and "Will the universe die?" Lab topics include telescopes, the analysis of starlight, and observations of stars and planets.

BIOL 1030/1031: Topics in Biology. Designed for non-majors. Offers understanding, experiences, and skills related to common biological issues. Includes class discussions, small group activities, lectures, selected readings, and laboratory investigations.

BIOL 1110/1111: General Biology. Prerequisite: MATH 1710 with C- or better of MATH ACT of 19 or higher. Primarily for Biology majors and minors and other science-oriented students. Biological principles and processes including introduction to the nature of science, cells (structure, function, metabolism, division), genetics, evolution, viruses, bacteria, protests, and fungi.

BIOL 2010/2011, 2020/2021: Human Anatomy and Physiology I and II. Meets requirements for many pre-health professional programs including nursing. Structure and function of humans covered. Required for Nursing majors.

CHEM 1030/1031: Chemistry for Consumers. Language, development, structure, and role of chemistry as it relates to knowledge and activities of the educated person. Examples will be taken from medicine and human health, environmental pollution, energy and its costs, etc. Understanding of the relationship between chemistry and society will be enhanced using special subtopics: lectures, demonstrations, and inquiry-based laboratory work drawing from the expertise of the individual instructor. For non-science majors. Does not count toward any major or minor.
CHEM 1010/1011: Introductory General Chemistry I. For students with no prior courses in chemistry; to be taken before CHEM 1110. Fundamental concepts of chemistry: measurements, matter, chemical bonds, chemical reactions, nuclear chemistry, states of matter, solutions, and electrolytes. Will not count toward a major or minor in Chemistry.
CHEM 1110/1111: General Chemistry I. Prerequisite: High school chemistry. Fundamental concepts of atomic structure, molecular structure and bonding, chemical reactions, stoichiometric relationships, periodic properties of the elements, thermochemistry, and properties of gases.
GEOL 1030/1031: Introduction to Earth Science. The earth and its relationship to its space and environment emphasized. Forces and processes which combine to mold the face of the earth and its atmosphere, as well as the internal constitution of the earth.

College of Liberal Arts
College of Liberal Arts

## GENERAL EDUCATION COURSE DESCRIPTIONS

GEOL 1040/1041: Physical Geology. The origin, composition, and structure of the solid earth: rock-forming minerals; igneous, sedimentary, and metamorphic rocks; earthquakes and plate tectonics; surface processes; geologic time. Identification and description of minerals and rocks in hand sample. Use of topographic and geologic maps.

PGEO 1030: Physical Geography. The physical earth as the home of humans. The global earth in space, tools of the discipline, the atmosphere, the hydrosphere, and the biosphere. Field trips may be required. Three hours lecture and two hours laboratory per week.

PHYS 1110 Discovering Physics. Prerequisite: MATH 1710 or 1730 or 1630. Uncover the fundamental concepts of physics in a hands-on approach that involves observations, measurements, forming hypotheses and validation of their ideas in groups of their peers. Combined lecture/laboratory sessions [under one course numberl.

PHYS 2010/2011: Non-Calculus-Based Physics I. Prerequisite: MATH 1710 with a minimum grade of C (2.0) or MATH 1730 or MATH 1910. Classical mechanics traditionally covered in a first-semester college physics course. Kinematics, forces, momentum, angular motion, calorimetry, and sound waves.

PHYS 2110/2111: Calculus-Based Physics I. Prerequisite: MATH 1910 with a minimum grade of C (2.0). A calculus-based introduction to mechanics and wave motion.

PSCI 1030/1031: Topics in Physical Science. Language, development, structure, and role of physical science (physics, chemistry, astronomy, and geology) as it relates to the knowledge and activities of the educated person. For non-science majors.

PSCI 1130/1131: Contemporary Issues in Science. Lecture emphasizing the application of basic concepts in science to topics of contemporary interest to the general citizenry. Covers basic science related to selected topics. Specific topics will vary. Includes laboratory activities, group-oriented problemsolving using computers, class discussion of selected contemporary issues in science. For non-science majors. Does not count toward any major or minor.

## SOCIAL AND BEHAVIORAL SCIENCES ( 6 credits) Choose two.

AAS 2100: Introduction to African American Studies. Introductory interdisciplinary survey course which examines the African American experience from enslavement through the present; social, religious, political, and cultural interactions evolving from that experience.

ANTH 2010: Cultural Anthropology. A comparative examination of the cultural organization of human behavior in societies around the world. Practical applications and the importance of inter-cultural understanding stressed.

ECON 2410: Principles of Economics, Macroeconomics. As an aid to understand modern economic society: economic concepts of national income and its fluctuations, inflation, unemployment, role of the banking system, monetary/fiscal policies, and international topics. Required for College of Business majors.

ECON 2420: Principles of Economics, Microeconomics. As an aid to understand modern economic society: economic concepts of consumer and firm behavior; the pricing of goods, services, and productive factors; international topics; and an overview of the American economy

GEOG 2000: Introduction to Regional Geography. Examination of world regions using the geographical perspective, identifying the main physical and cultural features, especially through the use of maps.

GS 2010: Introduction to Cross-Cultural Experiences. Establishes a broad-based foundation for understanding varying perspectives and values in a culture other than one's own. Differing global and international views on cultural and environmental issues past, present, and future. The student's cultural background will be used for comparative purposes.

HLTH 1530/1531: Health and Wellness. Explores the role and importance of health and wellness in the lives of individuals and society in general. Laboratory venues will allow opportunities for assessment of lifestyles, decision-making, and research data on health and wellness. Lectures will provide concepts, information, and data involved in maintaining optimum health and wellness. Two lectures and one laboratory.

EMC/JOUR/RIM 1020: American Media and Social Institutions. The power of the mass media and its effect on social institutions and practices. Develops skills of qualitative and quantitative social science research in the area of mass communication processes; examines media as social, cultural, and economic institutions that shape the values of American society, its political dialogues, its social practices, and institutions.

PS 1005: Introduction to American Politics. Constitutional principles, functions, and administration of American federal government; Congress, the Presidency, and the Supreme Court.

PS 1010: Introduction to Global Politics. Comparative theories and institutions of government. Law, constitutions, power, political socialization, ideologies, and the media.

PSY 1410: General Psychology. Introductory survey course. Includes biological foundations, perception, principles of learning, intelligence, motivation, emotion, human development, personality, social psychology, behavior disorders, and psychotherapy.

RS 2030: Religion and Society. Introduces the academic study of world religions with an emphasis on the ways religion both influences and is influenced by society and human behavior.

SOC 1010: Introductory Sociology. Covers the central concepts, theories, and methods of sociology. Focuses on social processes and institutions in modern societies. Assists students in understanding and applying this knowledge in their everyday lives.

SOC 2010: Social Problems. A survey of issues defined as problems by society; examines programs and agencies that address them. Problems addressed include poverty, crime, environment, energy, health, etc.

WGST 2100: Introduction to Women's Studies. Designed to inform and enlighten students about the lives and history of diverse women and the social construction of gender. Areas of study may include work, the family, health, sexuality, violence in women's lives, images of women, and feminist activism.

## Foreign Language Placement Test

## Have You Taken a Language in High School?

If so....

## The Foreign Language Placement Exam is for you!

## Earn up to 12 hours - a whole semester - of FREE MTSU college credit!

You can earn up to twelve credit hours for language skills by taking the foreign language placement test and completing the course into which you place. If you took foreign language classes in high school, learned languages while abroad or at home, you should take this free exam. You may take the placement test if you do not already have college language credit. The adaptive computerized exam for French, German, Spanish, Russian, and Italian takes about 20 minutes, and you will find out immediately the course level in which you need to enroll. Arabic, Japanese, Chinese, Portuguese, and Latin are available upon request.

Please contact Mrs. Betty Woodley via email at Betty.Woodley@mtsu.edu or by phone at (615) 898-5728.

# DegreeWorks and Academic Maps 

Degreeworks: a comprehensive academic advising and degree audit tool

- Available for use in PipelineMT and requires Mozilla Firefox (free downloadable browser)
- Designed to facilitate real-time monitoring of your academic progress
- Used by students and advisors to use to enhance advising, degree planning and graduating on time.
- To run a Degree Evaluation, log in to PipelineMT>click on Registration \& Student Records (left side menu)>Click on the DegreeWorks icon>click the PROCESS button to refresh with the most current data
Academic Map: a reference guide that gives a general overview of requirements for a different degree programs
- Outline a SUGGESTED sequence of courses.
- Following the suggested course sequence can keep you on track for graduation!
- Designed as a guide when planning your schedule

## What is Degree Works?

Degree Works is a comprehensive web-based academic advising, transfer articulation, and degree audit tool designed for students and advisors to monitor academic progress towards degree completion. Degree Works allow students to stay on track and plan coursework for future terms.

## How does Degree Works work?

Degree Works reviews the degree requirement for a program of study and uses academic coursework completed, enrolled, and registered courses to create the degree audit. In addition, Degree Works will show any outstanding requirements.

What will I find within the academic degree evaluation audit?
The degree evaluation/audit is set-up in block format and consist of:
$>$ Degree Requirements
$>$ Learning Support (if applicable)
$>$ Candidacy (if applicable)
> Undergraduate Pre-requisites (if applicable)

- General Education
$>$ Major
> Auxiliary/Major Support Courses
$>$ Minor
$>$ Upper-Division,
> Additional Courses (that may be used as electives)
$\Rightarrow$ Insufficient
> In-progress Courses
Once a requirement has been completed, a green box with a white check will appear next to the course. In-progress courses will have a blue box with a white tilde. If there is a requirement not met, there will be a red box and will read still need.

## What is the Progress Bar?

The Progress Bar looks at all requirements in the Degree block not just coursework
What catalog years are built in Degree Works?
The most recent, seven years for Undergraduate and ten years for Graduate Studies
Example: Undergraduate 2012- Present

## Degree Terms

Academic Calendar: Term-specific information for each semester, including dates, deadlines, and university holidays.
Catalog: Online University publication listing all programs of study, degree requirements, course descriptions, and academic policies and procedures.

Degree Requirements: Components that make up a degree, including General Education, Major, Minor, and Elective courses. Each degree has different requirements, which can be found on the online University catalog. All Bachelors degrees require a minimum of 120 credit hours at MTSU.

General Education (Gen Ed): Set of core courses that must be completed by all degree-seeking students at MTSU. These classes are designed to provide students with a diverse and interdisciplinary knowledge base that complements and supports their academic major.

Credit Hour: Value assigned to each course depending on the amount of time spent in class each week. Generally, one credit is assigned for each 50-minute lecture hour per week. Students must enroll in 12 or more credit hours each semester to be full-time.

Prescribed course: Provides additional learning support to assist students in achieving academic success. All entering degreeseeking students will be assessed for prescribed course placement.

## Advising Terms

Assigned Advisor: Academic and Faculty advisors assigned to students to assist them throughout their academic careers. These advisors work with students to assist in determining academic progress, selecting courses, and evaluating career and major options. A student's assigned advisors can be located in PipelineMT.

College Advisor (or Academic Advisor): Professionally trained academic staff member assigned to assist, support, and help students navigate college from Day 1 through graduation.

Faculty Advisor: Assigned faculty member who provides in-depth academic guidance on particular areas of study.

## Registration Terms

Assigned registration time: When students can register for the next semester. This time will be specified in PipelineMT.
Co-requisite: Course that must be taken at the same time as another specified course.
CRN (Course Reference Number): Five-digit number identifying a specific course section when registering.
Hold: Prevents a student from registering and/or receiving their transcript until the issue is resolved. Examples include unpaid bills, parking tickets, and failure to scheduled and attend a mandatory academic advising meeting (such as students with 30 or less credit hours, new transfers, or veterans).

Prerequisite: Specific course or requirement that must be completed before taking the next sequential course.
Priority Registration: Designated time period for students to register for the next semester based on credit hours.
