

About Us

IAT Insurance Group is committed to developing and fostering the growth of dedicated and motivated self-starters. Our Underwriting and Claims Trainee Program is designed to help launch the careers of recent college graduates and transition the careers of current employees in the disciplines of underwriting and claims through hands-on experience. Senior IAT employees work diligently to give trainees the opportunity to participate in valuable and meaningful work, obtain industry knowledge, receive on-the-job training, and gain career enhancing technical skills that promote professional growth. The program is structured to equip trainees with essential skills that serve as building blocks for a solid career foundation in underwriting or claims. This includes live sessions with subject-matter experts, online courses and field work.

Underwriting and Claims Trainee Program

The Underwriting Trainee Program is for candidates interested in applying analytical skills to evaluate business risks. This program will leverage trainees' newfound knowledge of underwriting by exposing them to classroom sessions and field work. Trainees can expect to gain deep expertise by exploring all levels of the underwriting discipline.

The Claims Trainee Program is suited for individuals that are customer-focused and inquisitive by nature. Trainees work with subject-matter experts to investigate claims and help our customers get back on their feet after experiencing a loss. This program exposes trainees to the complete claims process from start to finish through live sessions and field work.
