

Lucent Health

About Us

We receive daily data reports for your covered members which means we're notified within **24 hours** of a claim being filed about any potential medical condition.

We reach out to the individual as soon as we're notified, offering care and support through every decision, both big and small, on their healthcare journey. Early and holistic support creates better outcomes, mitigates risk, and controls overall costs.

We are committed to pushing beyond the broken and antiquated insurance structures to empower you to take control of health benefits for your employees. With customized plans, data engineering, and superior care experiences, lucent health provides proactive healthcare solutions for your people.
