Re: SGA Resolution 4-9-F

Date: December 7, 1998

I have reviewed the referenced legislation and commend the sponsors for their initiative in this matter. While the Red Cross blood drives are certainly worthy of our support, I do not feel that it would be appropriate to allow placement of flyers on doors or in hallways. The posting of information in these areas is prohibited for both safety and maintenance reasons. I would suggest that you investigate alternative solutions to achieve your objectives, such as placement of signs on the grounds (with the approval of the Dean of Student Life). I think this would be acceptable under our current policy regarding signage on campus.

Please let me know if you have any questions.
