Section 4: Statistics Report - Students Note: Council adopted the Graduation Rate definition used by the National Center for Education Statistics, <https://nces.ed.gov/ipeds/use-the-data/survey-components/9/graduation-rates>. As required by the Council on Higher Education Accreditation (CHEA), COAPRT is mandated to engage in “regular, critical, self-evaluation of its performance, standards, policies and impact” (CHEA Standard 12.M.1). This process includes “the review of aggregate information regarding the extent to which the accredited institutions or programs are achieving their expectations for student learning” (CHEA Standard 12.M.1). To meet this CHEA standards we are collecting the following program level data: Graduate school acceptance rate, post-graduation employment rate, and six-year graduation rate. This data will be collected and reported for each COAPRT accredited program within your department and not aggregated across multiple COAPRT accredited programs. Suggested sources of evidence for this program-level data could include alumni or senior exit surveys completed within x months of graduation, centrally collected data if it can be disaggregated for each of your programs, self-report in a department data-base, etc.
